- We rehearse, perform and work as team. This includes transportation. Traveling by means other than school provided transportation, though in a particular case may be unavoidable, and is discouraged. We need to travel as a team.
- It is at the Band Director's discretion that students are given permission to travel by means other than school provided transportation. This will be decided on a case by case basis.
- Students are not allowed to drive to and from events.
- Charging for transportation is now part of regular band fees. Students delinquent in fees may be excluded from band trips.
